

FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES COMMISSIONER WILTON SIMPSON

CITRUS CARIBBEAN FRUIT FLY PROTOCOL PROGRAM EASY STEP CERTIFICATION REQUIREMENTS

Call (772) 241-6360 for: host maps of your acreage, verification of host removal,
establishment of traps and billing information.

STANDARD SEASON

Low Risk Certification Requirements

- August 1st through April 15th
- Minimum size of 320 acres
- 1 ½ mile buffer with no host
- Seven (7) days trapping for acreage to be certified
- May convert to Moderate Risk areas for Post Standard Season

Moderate Risk Certification Requirements

- August 1st through April 15th
- Minimum size of 40 acres
- 300 foot buffer with no host
- Ten (10) days trapping for acreage to be certified

POST STANDARD SEASON

Post Standard Season Certification Requirements

Moderate Risk with bait spray applications will be the only method of certification during the Post Standard Season

- April 16th through end of season
- Minimum size 40 acres
- 300 foot or ½ mile buffers with no hosts
- **300 foot buffer** – 30 days trapping; **aerial application must begin by March 16th** and continue every seven (7) to ten (10) days until end of harvest
- **½ mile buffer** – 10 days trapping; **aerial application must begin by April 16th** and continue every seven (7) to ten (10) days until end of harvest

Billing

\$4.00 per acre per month, beginning when traps are established and continuing until traps are removed by participant's request. Minimum acreage is 40 acres for bait spray areas. Minimum acreage is 320 acres for negative trapping, which will be divided proportionally if there is more than one participant. Information for billing is required when traps are established. It is important billing information is correct: **Name, Address, and City, State, Zip and Billing Email Address.**
